Searching for Items

The site is equipped with intuitive search features to help you easily find your literature items. Use the Search fields located at the top left of your screen to enter the Item # or Item Description in the text boxes. You may also select a product group, item type, or brand from the drop-down menus, either alone or in combination with any of the other search boxes or menus.

Once you've entered your search criteria, click the **Search** button. Clicking Search without criteria will show all results.

Your search results will display on screen. Items can be sorted by "Most Recently Added," "Most Ordered," and by "Item Number" using the **Sort By** drop-down menu at the top of your screen.

To view an item cover and description, click the item thumbnail. To add the item to your cart, enter your order quantity and click the **Add** button.

Various items can also be downloaded as a PDF file to your desktop by clicking on the PDF icon next to the item. To send the item electronically via e-mail, click the e-mail envelope icon next to the item.

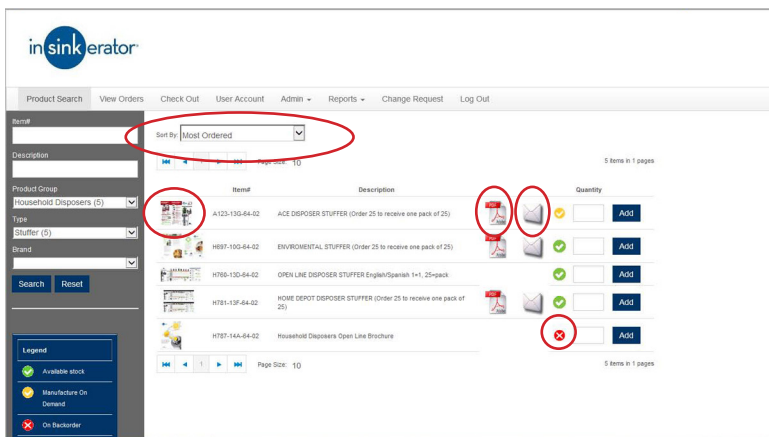

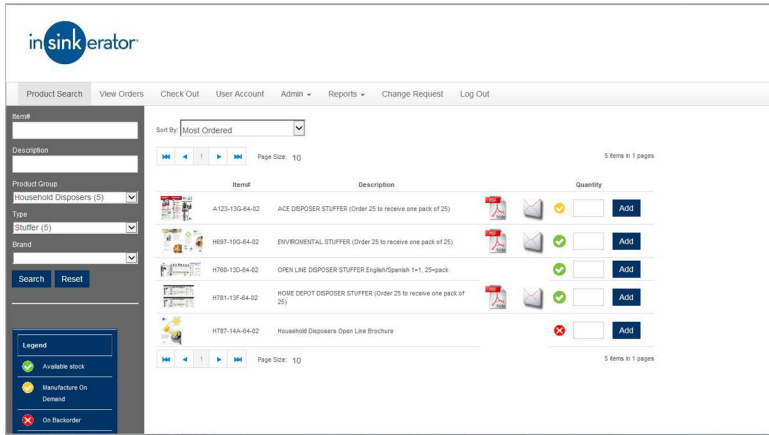

Once you've successfully added items to your shopping cart, the tool will indicate from the top toolbar how many items are currently in your cart. You can view and edit your shopping cart at any time by clicking the **Check Out** button from the top toolbar.
